

- Noise reduction solution for power line.
 - Compared to the FBA series, has low direct current resistance for compatibility with large currents, optimal for low power consumption. Various frequency characteristics with 2 materials of different features for countermeasures against everything from general signals to high-speed signals.
 - Performs well even in signal lines where low direct current resistance is required.
 - AEC-Q200 qualified
 - Operating temperature: -55 to +150 °C (including self-temperature rise)
 - Quantity: 1000pcs
-
- Power line filter for body controls, and car multimedia etc.

Part No				I_R
FBHA1812-800-602R	80			
FBHA1812-151-502R	150			

I_R referring to 40K self-heating above ambient temperature
